Mehman Ismayilli

Course Instructor

EMAIL mehman.ismayilli@economics.ox.ac.uk

OFFICE HRS 16:00–17:00 • Mon, Tue & Wed

FORMAT 3 sessions per week

DAILY RHYTHM

- 11:30 – 13:00 ● **Lecture** • core theory
- 13:00 – 13:10 ● Break
- 13:10 – 14:10 ● **Seminar** • applied problem work

01 KEY DATES

Problem Set 1 Fri • Jul 3

Problem Set 2 Fri • Jul 10

Midterm Exam Tue • Jul 7

Final Exam Fri • Jul 17

02 ASSESSMENT

Problem Sets (x2)		18%
Midterm Exam		35%
Final Exam		35%
Attendance		12%

03 LEARNING OUTCOMES

- 01 **Explain** the fundamental principles of consumer choice, firm production decisions, and market failures.
- 02 **Apply** mathematical optimization to solve consumer utility maximization, firm cost minimization, and profit maximization problems.
- 03 **Analyse** how changes in prices, income, technology, and strategic environment affect individual choices, firm decisions, market outcomes, and social welfare.
- 04 **Evaluate** the efficiency of market outcomes and assess policy interventions — taxes, subsidies, regulation, property rights — for externalities and market failures using economic criteria.

04 WEEKLY CONTENTS

WEEK 1 • FOUNDATIONS

Preferences & utility • constrained optimization • demand & elasticity • **firms**, production • production costs & supply.

WEEK 2 • MARKETS

Interaction of **supply & demand** • consumer welfare analysis • tax incidence • competitive firms & markets • **monopoly**.

WEEK 3 • STRATEGY

Duopoly & game theory (perfect-info, repeated, simultaneous & sequential games) • externalities • public goods • **uncertainty**.

05 REQUIRED TEXT & SELF-STUDY

PRIMARY TEXTBOOK

Microeconomics: Theory and Applications with Calculus

Jeffrey M. Perloff (2020) • 5th ed. • Pearson Addison Wesley, MA.

ISBN-13 • 978-0-13-518377-9

21h

Independent study per week, across all three weeks, is required for reading and research beyond contact hours.
